OBJECTIVE

Recent Computer Science graduate with hands-on experience in Python, seeking a challenging position where I can contribute to developing innovative software solutions and grow my expertise.

EDUCATION

BTECH computer science and engineering Vignan University Percentage: 70%	2021 – 2025 Guntur, India
Intermediate Vignan junior college Percentage: 71%	2019 – 2021 Guntur, India
SSC Sri Chaitanya High School CGPA: 9.8	2018 – 2019 Ponnur, India

SKILLS

Technical Skills

- Programming: Python, C

Soft Skills

- Communication
- Team Collaboration
- Time Management
- Adaptability

PROJECTS

Image Caption Generator

Technologies: Python, CNN, RNN, TensorFlow, Deep Learning

- Developed a deep learning model that automatically generates descriptive captions for images using CNN for feature extraction and RNN for sequence generation.
- Implemented the model in Python using TensorFlow to process image datasets and generate human-like captions.
- Improved caption relevance by optimizing training parameters and preprocessing image features.
- Designed to support accessibility applications for visually impaired users.

Financial News Sentiment Analysis using NLP

Technologies: Python, DistilBERT, TF-IDF, Word2Vec, NLP, Machine Learning

- Built an NLP system to analyze financial news and detect speculative language affecting market behavior.
- Implemented DistilBERT with hybrid embeddings (TF-IDF + Word2Vec) for contextual text analysis.
- Achieved 93% model accuracy, outperforming baseline sentiment classification models.
- Designed a Market Volatility Trigger Score (MVTs) to assist investors in risk assessment.

CERTIFICATES

PET EXAM

Certified in PET exam conducted by Cambridge university.

Hacker Rank

- Problem Solving (Basic)
- Problem Solving (Intermediate)
